

ARUN KUMAR

SOFTWARE ENGINEER | ANGULAR | FRONT-END DEVELOPER

Chennai, TN / India | +91 9790288107 | arunkumar.dev.404@gmail.com | [linkedin.com/in/arun-kumar-6269a5217](https://www.linkedin.com/in/arun-kumar-6269a5217)

EDUCATION

B.E. - Computer Science & Engineering | Francis Xavier Engineering College, Tirunelveli, Tamil Nadu | 2018 - 2022

PROFESSIONAL SUMMARY

Software Developer with 4+ years of experience specialising in front-end development using Angular 17+, including hands-on work building agentic AI workflow platforms. Strong knowledge of HTML5, CSS3, JavaScript, and TypeScript, with experience building responsive, accessible, and high-performance web applications. Proficient in Angular Material, RxJS, and RESTful API integration for developing scalable and interactive user interfaces. Experienced in designing multi-agent orchestration UIs, human-in-the-loop (HITL) approval workflows, and interactive workflow-canvas / node-graph editors for AI-driven document automation. Hands-on experience with CI/CD pipelines and deployment automation using Azure DevOps. Familiar with Agile methodologies, actively involved in sprint planning and cross-functional collaboration to deliver high-quality software.

SKILLS

Front-End: Angular 17+, HTML5, CSS3, JavaScript (ES6+), TypeScript, Bootstrap 5, jQuery, PrimeNG, Angular Material, NgRx, RxJS, Responsive & Accessible UI, SPA Development

Agentic AI & GenAI: Agentic Workflows, Multi-Agent Orchestration, Master-Agent Services, Human-in-the-Loop (HITL) Design, Node-Graph / Workflow Canvas UI (@foblex/flow), Prompt-Driven Interfaces, GenAI / RAG Tooling, LLM-Integrated UI

Back-End & API: .NET Framework, RESTful API Integration, gRPC-Web, SignalR (Realtime), MSSQL, PostgreSQL, Neo4j

Data Visualisation: D3.js, Chart.js, amCharts

DevOps & Tools: CI/CD Pipelines, Docker, Kubernetes, Azure DevOps, Git, Webpack

Cloud: AWS, Azure, Amazon S3

Monitoring & QA: Kibana, Log Analysis, Debugging, Unit Testing (Karma/Jasmine)

Architecture: Micro Front-End, Microservices, Component-Driven Design

Project Mgmt: Jira, Scrum, Sprint Planning, Agile, Cross-functional Collaboration, Code Review

EXPERIENCE

XTRACT.IO TECHNOLOGY SOLUTIONS PRIVATE LIMITED

Jul 2024 - Present (2 Yrs 1 Mo)

Software Developer - Chennai, India

- Led the development of a feature-rich, responsive web application using Angular 17+, Angular Material, and PrimeNG, with a focus on clean UI and usability.
- Played a key role in the AI FlowPilot / XDAS AI initiative -- contributed to an agentic workflow builder for automating lease document processing, handling complex UI workflows and integrations, delivering high-quality outcomes across every sprint.
- Built an interactive SVG-based workflow canvas (drag, zoom, pan, auto-layout, minimap) visualising multi-agent pipelines using node-graph diagramming (@foblex/flow).
- Designed human-in-the-loop (HITL) approval interfaces with confidence-based field review for AI-extracted document data.
- Implemented a master-agent orchestration service coordinating job APIs, session state, and audit logging across multi-agent workflows.
- Designed and deployed custom bots to automate business processes by constructing and executing workflows on VM environments.
- Implemented log monitoring and analysis using Kibana, ensuring visibility, traceability, and quick debugging across bot operations.

MOBIUS KNOWLEDGE SERVICES

Mar 2022 - Jun 2024 (2 Yrs 3 Mo)

Software Developer - Chennai, India

- Played a key role in developing a web application by integrating HTML, CSS, TypeScript, Angular, NgRx, jQuery, PrimeNG, and Neo4j.
- Led integration of Amazon S3, PostgreSQL, MSSQL, Power BI, Zoho CRM, and more using a microservices-based architecture for scalable, decoupled communication.
- Developed responsive UI with Angular Material and Bootstrap, consuming data from distributed RESTful microservices.
- Delivered data visualisation solutions using D3.js for seamless backend communication and interactive reporting.

KEY ACHIEVEMENTS

- **Star of the Quarter - Q3, Xtract.io (2024):** Recognised for consistent delivery and strong ownership of Angular-based UI requirements. Contributed key features to the AI FlowPilot initiative, managing complex UI workflows and component integrations with high reliability across sprint execution.
- **Star of the Quarter - Q1, Xtract.io (2025):** Recognised for technical depth and ownership in delivering the Fitch Custom Dashboard and Orchestrator redesign. Assumed additional responsibilities during a team member's absence, maintaining delivery timelines and quality without disruption.
- **Going the Extra Mile, Mobius Knowledge Services (2024):** Awarded for sustained dedication, proactive problem-solving, and consistently going beyond the defined scope to support team goals, accelerate delivery, and contribute to platform quality improvements.
